

Techo Fount

Sustainability Sheet

- Designed according to circular design principles
- The materials were designed to be reused or recycled safely
- All wood in this product is sustainably sourced with FSC and/or PEFC certification
- Product disassembly is easy with standardized tools
- All wood in this product complies with formaldehyde class E1 and E0.5

Material	Weight (gr)	% of total
Steel	24.379	57,05%
Wood	16.126	37,74%
Glue	1.410	3,30%
Polyamid 6	510	1,19%
Paper	180	0,42%
Polyester powdercoating	92	0,22%
Polyethylene	36	0,08%
Total	42.733	100%

Lifetime extension, reuse and recycling

We are committed to keeping the environmental footprint of our products as low as possible, so we advise you to contact us when the product is broken or no longer being used. With our Circular Hub, we make sure that the useful life of products is as long as possible.

- Lifetime extension by repair, maintenance or refurbishment
- Taking back for reuse
- Reusing parts and/or materials
- Recycling

Production and packaging

This product was produced in Europe with 100% renewable energy and has been packaged using reusable and recyclable packaging materials. The product was designed to be easily disassembled.

Specifications

Configuration: steel frame with a 160x80cm laminated chipboard top.

Weight: **42,73 kg**

55,27% recycled materials in this product

96,06% recyclability of this product

38,16% rapidly renewable materials
